

Electronic Instrumentation

VISIONMARK

An ISO 9001:2008 Registered Company

Engineered Graphics for Electronic Instrumentation

VisionMark provides durable keypads and graphic overlays for **test equipment, measuring devices, circuit testers**, and many other electronic devices. You can count on us to provide the printed electronics and product identification tough enough to last in the most demanding applications.

Our engineering staff works with **ANSI®535, NFPA® 1901, FDA**, and many other industry and proprietary requirements. In addition to being a **UL® Authorized Label Supplier**, we also carry **RoHS** and **WEEE** compliant products, and **UL®** and **CSA®** recognized constructions.

Finally, VisionMark has the infrastructure and experience to **support supply chain management** systems and **lean manufacturing** environments.

Tough Products for Difficult Service

- *Membrane switches and keypads*
- *Graphic overlays*
- *Lenses, displays, and bezels*
- *Spacers, insulators, and shields*
- *Branding nameplates, both polymer and metal*
- *Poly-domed labeling*
- *Injection molded nameplates and bezels*
- *Special films and adhesives*
