

PANEL & SWITCH OVERLAYS

MEMBRANE SWITCHES

Graphic Overlays

VisionMark manufactures custom graphic overlays and control panel overlays for many markets and applications. Like all our products, we build these keypad overlays with the printing and finishing options required by demanding markets and difficult environments. With our flexible options, you can tailor your graphic overlay to satisfy your design requirements. Our operating disciplines and experience ensure that you receive the right product, on time, at a competitive price.

Our design options for graphic overlays include:

- *Transparent or Translucent Windows*
- *Embossing*
- *Dead Front Images*
- *Selective Texturing*
- *Selective Diecut Adhesive*
- *Elastomer (rubber) key pads*
- *UL and CSA Constructions*

CONTACT your VisionMark field representative or our customer service staff for more information on VisionMark's graphic overlays.

VisionMark provides a full library of tough constructions registered to UL® 969, UL® 299, and CSA standards. In addition, we provide OEM overlays and labeling that complies with NFPA®1901 and ANSI® Z535.
